# Financial engineering

In order to take advantage of the opportunities to develop your business internationally, optimize the financial supports that match your project. We help you calculate and finance it.

Why use the **CLASSE EXPORT** financial engineering service ?

- 1 > **You save time** in the preparation of your files
- 2 > **The assessment** of your spendings is more reliable and more exhaustive
- 3 > Market information on your target countries are available so **you can argue your fundings requests**
- 4 > Regulatory information are also available to **evaluate your PRI** (Principles for Responsible Investment) and your competitiveness
- 5 > You **take advantage of the experience of our team** ready to answer your requests
- 6 > You benefit from **our close relationship** with financial agencies

## *The advantages :*

- **Don't waste time** in conceiving a project with no results. We confirm very quickly if you have a chance to fit the conditions needed
- **Be completely aware** of the essential conditions to obtain additional resources
- **Control** the existing financial leverages to optimize your request
